The percent change, from June to July was -15.2 for cases, -14.6 for recipients and -21.7 for money payments. FOOD STAMPS

Total persons participating in the Food Stamp program during July 1980 increased to 920,981 by 2.4% from 899,032 persons reported in June. Households increased by 1.8% from 345,459 households to 351,548. The total dollar value of food coupons issued increased by 1.5% from $33,711,232 reported in June to $34,210,248 reported in July. The average coupon issuance per person decreased by 0.9% from $37.50 in June to $37.15 in July.

MEDICAID

There were 687,937 persons eligible to receive Medicaid services at the end of the month of July 1980. This is an increase of 7,612 persons (1.1%) since June and an increase of 63,412 persons (10.2%) since July 1979.

Payments made to medical vendors during July 1980 totalled $84,415,053. This makes for an increase of $41,772,717 (98.0%) as compared with June vendor payments and an increase of $31,388,585 (59.2%) as compared with July 1979. In addition $807,984 were paid from Medicaid into the Medicare program this month as medical insurance premiums.

During July the Medicaid program paid claims for 388,301 recipients of medical services, an increase in participation of 233,816 persons (151.4%) when compared with June, and an increase of 112,860 persons (41.0%) as compared with July 1979.

Many Medicaid claims which ordinarily would have been paid in June were not paid because of the state government's cash shortage. Most of these claims were paid during July. This accounts for the large increase in participation during July.

Medicaid participation statistics are based upon the claims processed and paid during the month, and not upon the number of medical services actually provided during the month. As a result the average payment per recipient generally provides the best basis for comparison of data. The following table shows the change in average payment per recipient for each category of service in the Medicaid program.
